Weekly Mikan-chan Special Corner

The people near Mikan-chan

Photo credit: Sheska

Sometimes a grade schooler, sometimes a maid, our angelic Mikan-chan. Here are the people near her.

▲ Heiress of the Aikanet family, she attends school with Mikan-chan and employs me.

▲ Ojou-sama's friend... or lover? Is always getting in my way, but she shares my fetish, so we understand each other.

▲ Apparently Ojou-sama's disciple. If only she were three years younger... is what I originally thought, but this works too.

▲ Singlehandedly acts as photographer and editor for Weekly Mikan, the astounding editor also occasionally works as a maid.

A plan to re-train Sheska, who regressed to childhood last time, into a normal person!

From Kukan.
But in comics, if you hit them they usually go back to normal
Right now, Sheska's mental age is that of a child
What's different?
Yeah.
I definitely won't hit her
Just as expected.
I don't accept that kind of thing
Just looking like a child on the outside or just being a child on the inside

In Japan, at the end of the year people will do things like eat soba and at the beginning of the year they'll do things like visit the shrine

TL Note: Himehajime: a term used to describe various firsts during the new year - the first meal you eat, etc. But in a slang sense is used to refer to having sexual intercourse for the first time in the new year

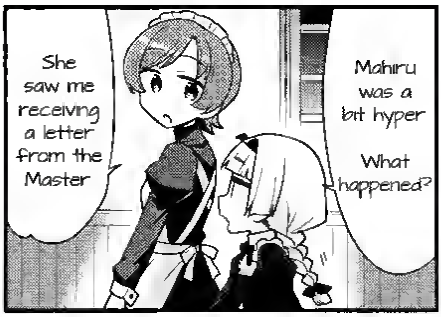
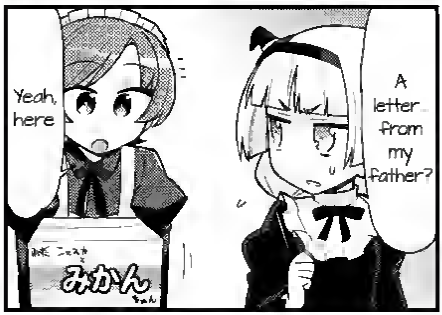
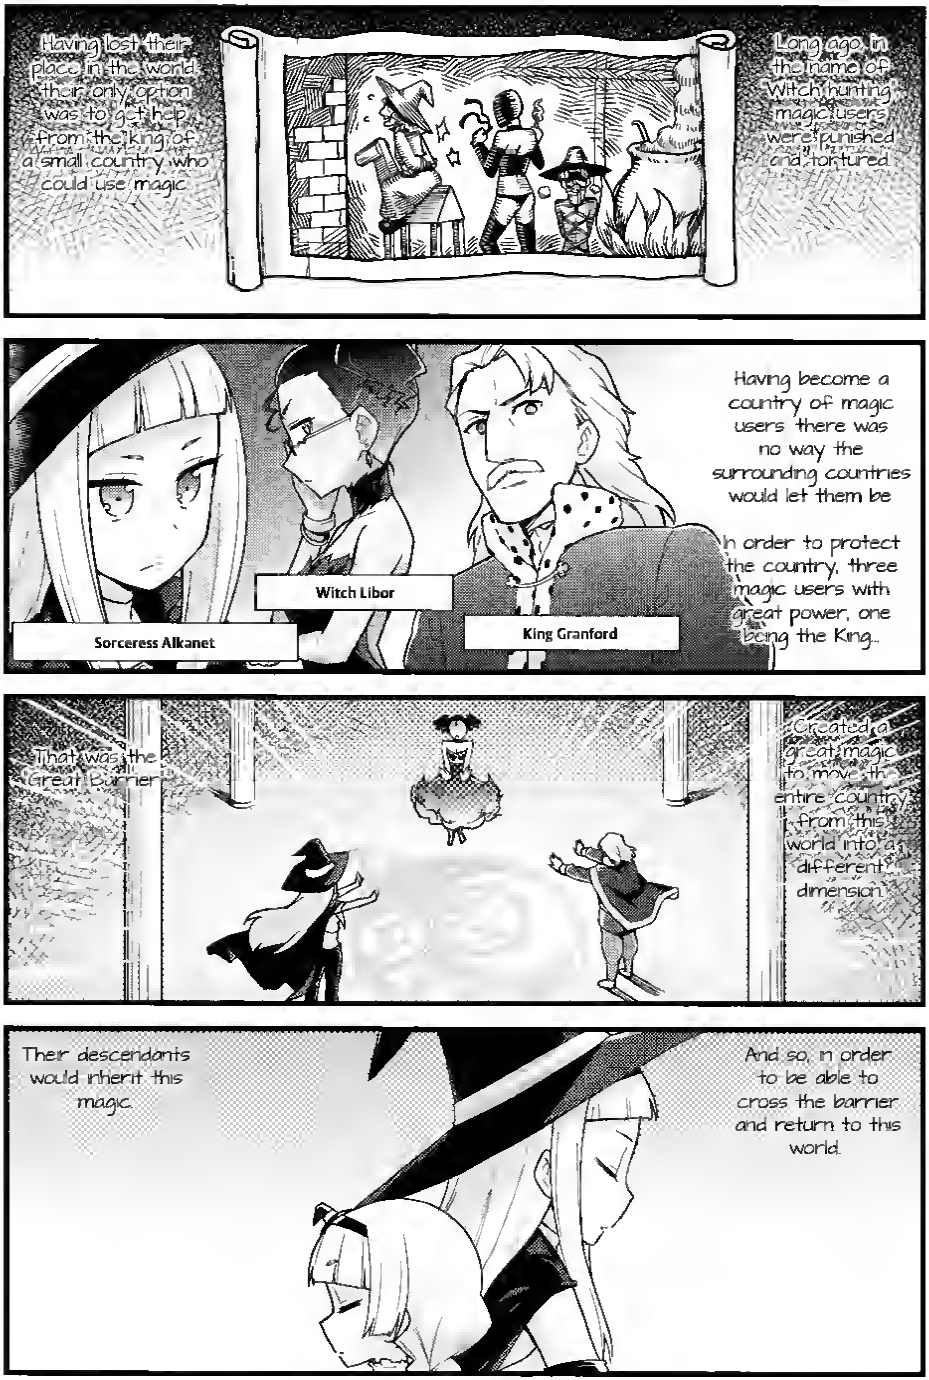
New Reality





魔女とほうきと黒縁メガネ



Having lost their place in the world, their only option was to get help from the king of a small country who could use magic.
Long ago, in the name of witch hunting, magic users were punished and tortured.
Witch Libor
Sorceress Alkanet
King Granford
Having become a country of magic users there was no way the surrounding countries would let them be.
In order to protect the country, three magic users with great power, one being the King...
That was the Great Barrier.
Created a great magic to move the entire country from this world into a different dimension.
Their descendants would inherit this magic.
And so, in order to be able to cross the barrier and return to this world.

Um...
You see...
Couldn't you just not worry about lineage and teach it to someone else?
—Then, a few generations ago the magic user in the royal family vanished
And the Libor family couldn't handle the responsibility and fled
Why didn't they predict this...
Are magic users all masochists?
They aren't—
When the successor comes of age the magic transfers from the current master on its own...
You can do it Master!
And I the only successor to the remaining family can't use magic...
